Features

3.7-inch HD LED Screen

Clear LED display with large font, ideal for senior citizens.

One-Touch Operation

Simple, user-friendly design, press a button for automatic measurement.

2 Users Mode

Supports two users with 199 readings, plus a convenient guest mode.

Accessing Historical Data

View past measurements with a single button press.

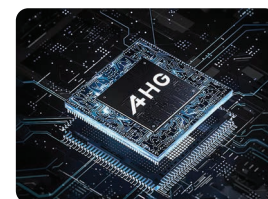

Intelligent Inflation Technology

Using high-quality air pump and intelligent inflation technology, measurement is more comfortable.

Advanced AI Algorithm

Utilizes the latest chip and advanced AI for faster, more precise blood pressure measurements.

Blood Pressure Monitor

Healthcare Products

Features

Blood Pressure Indicator

The indicator changes color based on your blood pressure reading:

Red

For high blood pressure

Yellow

For mild, high blood pressure, or hypertension

Green

For normal

Humanized Design

Cuff Wearing Detection

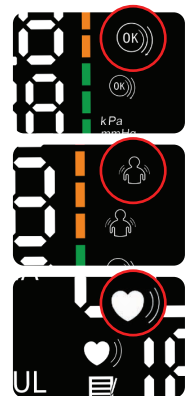

Automatically checks cuff fit to avoid inaccuracies.

Keep Still Indicator

A flashing alert reminds users to stay still during measurement for precise results.

Irregular Heartbeat Indicator

Detects and notifies users of irregular heart rhythms during measurement.

Additional Features

Date & Time Display

Shows real-time date and time for convenience.

Average Reading Calculation

Automatically displays the average of the last two or three readings for reliability.

Customizable Pressure Units

Switch between mmHg and kPa based on personal preference.

Features

Dual Power Supply

Reliable power options, always ready to use.

- Battery-operated – Take it anywhere.
- Type-C plug-in mode – Save batteries at home.

Battery Compartment

Type-C Port
(For external power supply (does not charge batteries))

DIGITAL UPPER ARM

BLOOD PRESSURE MONITOR

AHG-300

Specifications:

- **Measuring Method:** Oscillometric measurement
- **Display Mode:** LED
- **Screen Size:** 67 mm × 68 mm (3.7-inch)
- **Dimension:** 130 mm (L) × 100 mm (W) × 49 mm (H)
- **Weight:** About 221 g (without batteries)
- **Measuring Range:**
Blood Pressure:
SYS: 57~255 mmHg (7.6~34 kPa)
DIA: 25~195 mmHg (3.3~26 kPa)
Pulse Rate: 40~199 bpm
- **Accuracy:**
Blood Pressure: ±3 mmHg (±0.4 kPa)
Pulse Rate: ±5%
- **Power Source:** 4×AAA batteries or DC 5V (Type-C power supply)
- **External Power Supply Port:** USB Type-C
- **Auto Shutoff:** 2 minutes (after last operation)
